Services

## SAFETY

Safety is of crucial importance within our Group.

Therefore, and above all else, we have established Safety as fundamental pillar of our customer service commitment.

Our policy entails continuous commitment on behalf of our management and operational teams in order to achieve zero accidents, through the implementation of :

- An HSER Policy aiming to promote collective mobilization,
- A strong HSE Commitment inciting the desire to progress.

We master technical standards and have acquired and maintained strict certifications. These allow us to intervene, in total compliance, within the most demanding work sectors.

## NUCLEAR SAFETY

As a nuclear service provider, we operate confidently ensuring reliability of our customers' installations and tools of production.

By seeking to achieve operational excellence and committing ourselves to the quality of our services, we contribute to reach security, reliability, radiation protection and safety objectives, while guaranteeing compliance with time requirements and cost optimization.

By committing ourselves publicly, we demonstrate our involvement in the Nuclear Safety.

Therefore, we shape the working environment of each employee and promote the development of a strong Nuclear Safety Culture.

We capitalize on the field experience of our technicians to carry out scenario case studies, risk analysis and operating procedures. Accordingly, we define and implement procedures allowing our workers to carry out interventions in complete accordance with the Nuclear Safety requirements.

## QUALITY

Our commitment to quality is centred on the following principles :

- Guaranteeing the fulfilment of our clients' needs,
- Anticipating and managing risks,
- Encouraging discussions and exchanges with our clients,
- Actively listening to our employees.

Our quality management system is designed according to the standards :

- ISO 9001 : 2015,
- Client approval specifications (DEA EDF, CEA...) and specific certifications (NT UTO 85-114 EDF nuclear power plants).

Our quality control system is enhanced with customised procedures adapted to meet our clients' specific quality requirements.

The Group's objective is to always provide our clients with the level of quality of service that they expect.

## ETHICAL AND SOCIAL COMMITMENTS

Conscious of our role to play for future generations, we are part of a constant process of progress with a view to protecting the environment and promoting the development of tomorrow's societies.

We implement a Corporate Social Responsibility (CSR) approach on a daily basis, the cornerstone of our activities, which revolves around several commitments grouped into four main areas of action :

- **Sustainable development** : Limit our energy consumption and recover our waste,
- **Social responsibility** : Develop our human capital and act for the health of our employees,
- **Ethical approach** : Ensuring integrity and equality between our employees,
- **Solidarity commitment** : Participate in the development of territories.

Our CSR approach allows us to envision the evolution of the FOSELEV Group over time, while building an economy with a lower environmental impact and a greater social impact, an economy serving men and women without serving the environment.

## SERVICES & LOGISTICS

**830**  
Employees

**178M€**  
Of turnover

**65**  
Agencies

FOSELEV's Services & Logistics activity develops client-centric support offerings for the private and public sectors.

We propose an array of expert services to enterprises in need of a comprehensive solution to the daily challenges inherent to their field.

- Rental of mobile cranes to 650 tons capacity, lattice boom crawler cranes up to 200 tons, mobile tower cranes, crane trucks to 135 t/m capacity, 400 tons gantry crane,
- Rental of aerial lift to 90 m (self-propelled, lightweight and heavy-duty),
- Manufacture, rental and sale of prefabricated modules,
- Lifting, personnel lifting, handling, welding, mechanic and safety training,
- Industrial Storage and Logistics on a secured area.

# OUR ACTIVITIES

## Lifting / Handling / Transport

All-inclusive service offer to help small, medium, and large enterprises to achieve their daily objectives and complete complex projects.

## Personnel Lifting

A fleet of aerial lifts and aerial work platform trucks for rent offering work heights ranging from 8 to 90 meters.

## Modular Construction

Complete and multi-sector modular offerings for the design, manufacture, rental, and sale of prefabricated modules and complexes.

## Training

Training offerings to help all enterprises meeting their training objectives through standard, regulatory, and specialty trainings.

## Storage & Logistics

A global offer for industrial logistics and liquid bulk storage upwards of 82,000 m<sup>3</sup>.

## MAINTENANCE

**1055**  
Employees

**112 M€**  
Of turnover

**33**  
Agencies

Our Maintenance activity revolves around five specialized divisions :

- Industry,
- Nuclear,
- Oil & Gas,
- Maritime Industry,
- Public Works & Community Development.

We have developed customized multi-skilled offerings that include maintenance engineering, on-site performance of maintenance operations, as well as unit shutdown work by implementing all-inclusive solutions as general contractor.

**Piping /Welding**

**Mechanics, Hydraulics**

**High-pressure cleaning**

**Electricity, automation & command systems.**

# OUR ACTIVITIES

## Maintenance Operations

An exhaustive array of skills, including standard and specialty industrial maintenance.

## Maintenance Engineering

A comprehensive industrial solutions spanning from needs assessment, to determining and implementing contracts, and applying precise action plans.

## Repairs & Servicing

A high level of expertise in the fields of industrial equipment mechanics and machinery & equipment maintenance.

## Design & Fabrication

A comprehensive, multi-skilled solution that include the design and fabrication of components, specialty and diverse equipment.

## Unit Shutdown General Contracting

The mobilisation of numerous and varied material resources, along with a workforce composed of top technicians and operators.

## Industrial Cleaning

Thorough and flexible offerings to meet the most specific needs for equipment, component, and installation high-pressure and very-high-pressure cleaning.

## Environment & Decontamination

The mobilisation of technical skills to run decontamination and sludge removal operations within sensitive sites.

## CONTRACTING

**465**

Employees

**60 M€**

Of turnover

**13**

Agencies

Our Contracting activity ensure the calibration and organization required to accomplish any project, even the most complex. This solid competence in the field, paired with the capacity to mobilize large-scale human and material resources, allows us to support all of our clients with global turnkey operations and new works projects.

**Unit construction,**

**Heavy & combined lifting, complex handling,**

**Multi-Trade Projects,**

**Process subassembly design, EPC.**

# OUR ACTIVITIES

## Lead Contracting And Multi-Trade Projects

Complete mastery of new works, construction and contracting projects with a specific analytical capability Engineering and Methods department.

## Complete Unit Construction

Fully-integrated turnkey solutions for the construction of complete industrial installations.

## New Construction Piping

The mastery of a variety of sectors' demands and constraints for carbon steel, stainless steel, and alloy construction work.

## Process Subassembly Design

Comprehensive solutions for the design, fabrication, implementation, and qualification of cleanable and sterilisable process assemblies.

## Heavy & Combined Lifting

All-inclusive, multi-sector service offerings for high precision complex lifting operations.

## Complex Material Handling

Complete service offerings for complex horizontal & vertical handling of heavy or sensitive components.

## COMPREHENSIVE OFFER

FOSELEV offers all-inclusive solutions combining cutting-edge technical expertise and customised service.

An overall package based on the complementarity of our four areas of expertise :

- A single representative for all our services and trades, (who oversees the project, ensuring the monitoring and efficient coordination of all operations),
- A comprehensive range of know-how,
- Subcontractor and interface management (direction and coordination of secondary work),
- A dedicated team responsible for setting up an efficient organisational structure,
- The mobilisation of highly qualified personnel in key positions.

We know that your projects' success depends on efficient coordination and centralised communication between involved parties.

**« One single representative oversees each project from start to finish »**

For this reason, our projects are supervised by a single dedicated manager with in-depth knowledge of all the aspects involved.

# INTERNATIONAL OFFER

Over the last 15 years, FOSELEV has developed its overseas activities with a focus on its international potential, particularly in North and Central Africa, in South-East Asia and in the Middle-East through FOSELEV INTERNATIONAL.

Our locally-based agencies provide an all-inclusive service offer :

- Lifting, handling, transport,
- Technical support and industrial maintenance for all types of installations (off and onshore servicing contracts),
- Industrial piping (new construction, production unit shutdowns, revamping),
- Industrial cleaning and Unit shutdown,
- Maintenance, repair and activation of all technical machinery and equipment,
- Offshore crane repair,
- Rental and sale of prefabricated modular units (offices, site accommodations, changing rooms, canteens, ...),
- Maritime and fluvial logistics,
- Assistance and technical training.

**We offer assistance to the major economic agents/market participants, sharing our knowledge of the local industrial conditions.**

A close-up view of an industrial piping system. The pipes are primarily white and orange. A large orange pipe dominates the foreground, with a white valve featuring a green handle attached to it. In the background, more pipes and valves are visible, along with a person wearing a white hard hat and safety glasses, standing near the equipment.
