SAFETY

Safety is of crucial importance within our Group.

Therefore, and above all else, we have established **Safety as a fundamental** pillar of our customer service commitment.

Our policy entails **continuous commitment** on behalf of our management and operational teams in order to achieve **zero accidents**, through the implementation of :

- **An HSER Policy aiming to promote collective mobilization,**
- **The 12 SAFETY PILLARS allowing each of our employees to refer to a common set of safety instructions,**
- **A strong HSE Commitment inciting the desire to progress.**

We master technical standards and have acquired and maintained strict certifications. These allow us to intervene, in total compliance, within the most demanding work sectors.

NUCLEAR SAFETY

As a nuclear service provider, we operate confidently **ensuring reliability** of our customers' installations and tools of production.

By seeking to achieve **operational excellence** and committing to high quality services, we contribute to reach, reliability, radiation protection and safety objectives, while guaranteeing compliance with time requirements and cost optimization.

By **commiting publicly**, we demonstrate our involvement in Nuclear Safety. Therefore, we shape the working environment of each employee and promote the development of a strong Nuclear Safety Culture.

We capitalize on the field experience of our technicians to carry out scenario case studies, risk analysis and operating procedures. Accordingly, we define and **implement procedures allowing our workers to carry out interventions in complete accordance with the Nuclear Safety requirements.**

QUALITY

Our commitment to quality is centred on the following principles :

- **Guaranteeing the fulfilment of our clients' needs,**
- **Anticipating and managing risks,**
- **Encouraging discussions and exchanges with our clients,**
- **Actively listening to our employees.**

Our quality management system is designed according to the standards :

- **ISO 9001 : 2015,**
- **Client approval specifications (DEA EDF, CEA…) and specific certifications (NT UTO 85-114 EDF nuclear power plants).**

Our quality control system is enhanced with customised procedures adapted to meet our clients' specific quality requirements.

The Group's objective is to always provide the level of quality of service that our clients expect.

LET'S BUILD A FUTURE
FOR THE PLANET TOGETHER

In constant quest of progress, we are committed every day to minimizing the impact of **our activities on the environment by reconciling economic performance and social equity** as part of our Corporate Social Responsibility (CSR) approach.

Our improvement objectives are guided by **7 fundamental pillars** which constitute a guideline in accordance with the ISO 26000 standard:

1. **Organizational Governance**
2. **Human Rights**
3. **Workplace Relations and Conditions**
4. **The Environment**
5. **Fair Practices**
6. **Customer and Supplier Relations**
7. **Community and Local Development**

Our CSR approach draws a profitable shared growth for the employees, customers and suppliers of the FOSELEV Group while building an economy with lower environmental impact and greater social impact, an economy serving men and women without harming the environment.
